

# VSAT SERVICE FOR YACHTS

SELECTED AND TRUSTED BY LEADING CRUISE LINES, SUPER VSAT SOLUTIONS FROM MTN ARE THE WORLD'S BEST FOR YACHTING AS WELL. MTN CUSTOMERS DEPEND ON OUR VOICE AND DATA NETWORKS EVEN IN ISOLATED LOCATIONS. CUSTOMERS COUNT ON MTN.

**BE IN THE MIDDLE  
OF NOWHERE.  
AND AT THE CENTER  
OF EVERYTHING.™**

## **ALWAYS ON - ALWAYS AVAILABLE SUPER VSAT FOR YACHTS**

MTN has unparalleled experience in providing the best and most reliable satellite communications solutions designed specifically for the maritime industry. Working and playing in remote locations requires reliable voice and data networks. That's why over 250 vessels and land based operations rely on MTN. At sea, you demand nothing less for your peace of mind and yachting enjoyment.

Beyond satellite connectivity, MTN offers voice, data and Internet services that others cannot, including the ability to use your own mobile phone. Super VSAT services from MTN connect you to your own

private network, as exclusive as the places you visit around the world. And the costs are just as dependable as our service with fixed monthly fees for unlimited satellite connectivity.

## **SUPER VSAT SERVICES**

- "Always On - Always Available" service with guaranteed bandwidth up to 1 Mbps
- 4 phone voice lines included in the standard package with the option of expanding to 12 lines

- Competitive long distance rates for calls from the yacht
- Broadband Internet and email access
- WiFi compatible for wireless Internet access
- Remote Network Management System
- MTN system monitoring and customer support to provide assistance 24/7 every day of the year
- ShipTracker, a real-time, secure, proprietary Web-based system that offers information such as the vessel's location, course, speed and heading, even when you're not onboard.
- On-line bandwidth utilization reporting

**OPTIONAL ENHANCED SERVICES**

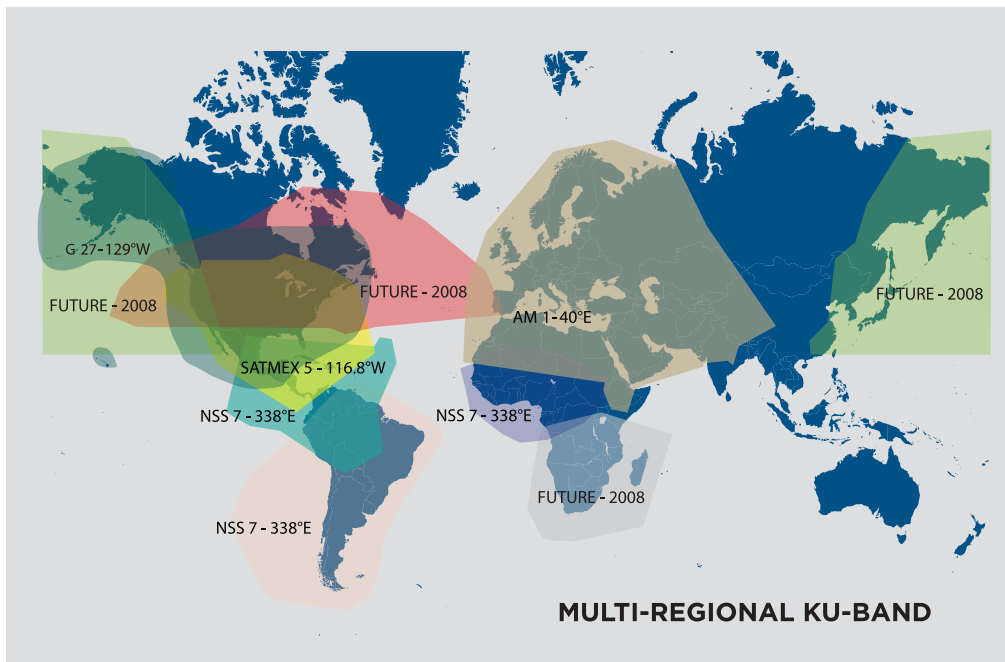

- The ability for you, your guests and crew to use their own mobile phone while at sea (additional equipment required, services priced separately)
- Stored-value cards and credit card calling
- OceanNews® service providing a daily newspaper delivered on-line or to a special printer on your yacht (additional equipment required, services priced separately)

**ABOVE DECK EQUIPMENT REQUIREMENTS FOR SUPER VSAT INSTALLATION**
